## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on October 27, 2006 has been entered.

### ***Response to Arguments***

Applicant's arguments with respect to claims 1, 2, 4 and 5 have been considered but are moot in view of the new ground(s) of rejection.

In response to applicant's argument regarding the non-elected species, though Examiner has withdrawn those claims from consideration and has stated as much in the previous Office action, the term "patentably distinct species" in the context of an election or restriction requirement means that the species between which election or restriction are required are patentably distinct over each other. The fact that applicant believes the elected claims to be patentable while the Examiner disagrees does not automatically render the non-elected claims patentably distinct over the prior art.

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject

Art Unit: 3761

matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

Claims 1, 2, 4 and 5 are rejected under 35 U.S.C. 103(a) as being unpatentable over Bennington (U.S. Patent No. 3,958,571).

With respect to **claim 1**: Bennington teaches an applicator 10 comprising a hollow elongated tubular handle 12 with a sealed end 20 and an open end 16 and an applicator tip 14 affixed to one end of the hollow elongated tubular handle wherein the applicator may be used to apply a small quantity of liquid without absorption and retention of excess amount of the liquid.

Bennington does not teach that open end 16 does not enclose any liquid. Bennington teaches that "various types of swab applicators are known such as those with an absorbent wad of material on the ends of a stick. The absorbent material, usually cotton, is dipped in a medicament and applied where needed." (Col. 1, lines 8-11) Thus it would be obvious to one of ordinary skill in the art to construct the applicator of Bennington so as to not enclose liquid in said tubular handle to accommodate applications where the swab applicator is be dipped into said medicament, such as viscous medicaments.

With respect to **claim 2**: The applicator tip 14 is affixed to the open end 16 of the hollow elongated tubular handle 12. (Fig. 2, Col. 1, lines 55,56)

With respect to **claims 4,5**: The applicator tip 14 is made of an absorbent material. (Col. 1, lines 52-55)

### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
